Big Five personality test report

The Big Five Personality Test offers a concise measure of the five major factors of personality, as well as the six facets that define each factor. Factor scores give a broad global description of an individual. Facet scores describe, in more detail, the specific traits of personality that make up the broad global description.

Textual summary of your report

The Big Five Factors	Describing a low range scoring person...	Percentile	Range	Describing a high range scoring person...
Openness to experience	Traditionalist • down-to-earth • practical • conservative • prefers traditional outlooks and technical problem-solving	5	Very low	Imaginative • open-minded • experimental • prefers creative conceptual problem-solving
Conscientiousness (Work Ethic)	Spontaneous • disorganised • prefers flexible plans • dislikes precise details	19	Low	Conscientious • disciplined • efficient • well organised • likes precise detail • strong sense of duty • (Very High scorers could be described as workaholics)
Extraversion	Reserved • formal • serious • quiet • prefers working alone • avoids direct leadership roles	58	Middle	Outgoing • friendly • assertive • likes working with others • enjoys direct leadership roles
Agreeableness	Hard-headed • sceptical • competitive • proud • prefers competition over co-operation	4	Very low	Compassionate • eager to please • good natured • prefers co-operation over competition and conflict
Natural reactions	Not easily upset in stressful situations • relaxed • resilient • calm	81	High	Experiences negative emotional reactions and feelings of anxiety • prone to worry • easily upset

Understanding the scores

This report ranks your scores within a range from 'very low' to 'very high'. To enable you to make a comparison the percentage of people* who normally fall within each range is indicated.

**Normal adult working population. Please note that distribution of scores may differ if comparisons are being made against other cultural, demographic or specific occupational groups.*

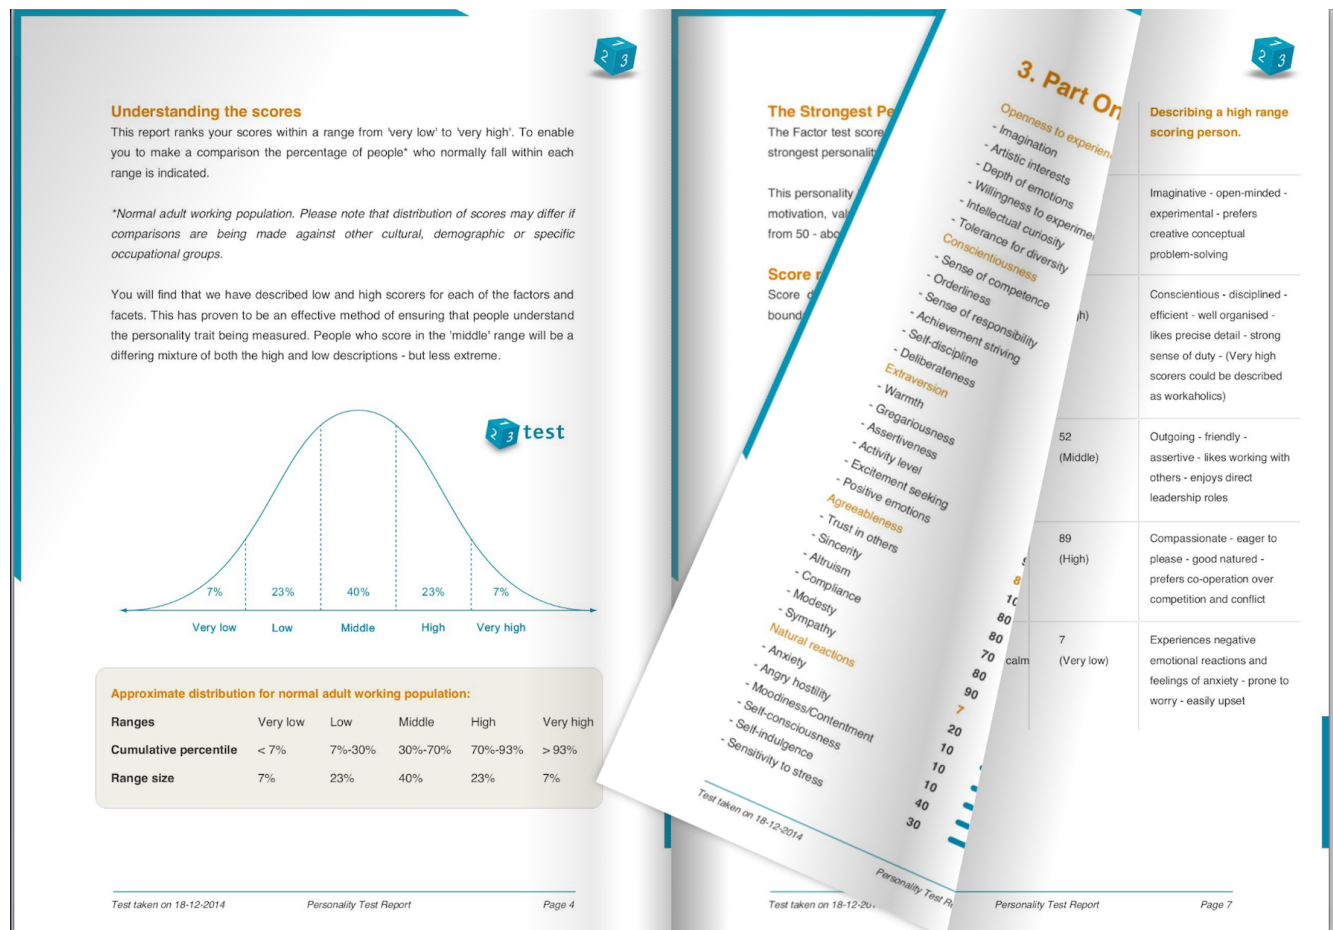

Approximate distribution for normal adult working population:

Ranges	Very Low	Low	Middle	High	Very High
Cumulative percentile	< 7%	7% > 30%	30% > 70%	70% > 93%	> 93%
Range size	7%	23%	40%	23%	7%

The Strongest Personality Factor

The Factor test score furthest away from 50 - above or below - indicates the person's strongest personality trait. This personality trait is likely to have the greatest influence on your overall behaviour, motivation, values and reactions to life and work situations. The next furthest away from 50 - above or below - is likely to have the next greatest influence and so on.
