CS4044 – FSPM FALL 2024 ASSIGNMENT # 1

Scope Management

Assignment Category: **Individual Assignment**

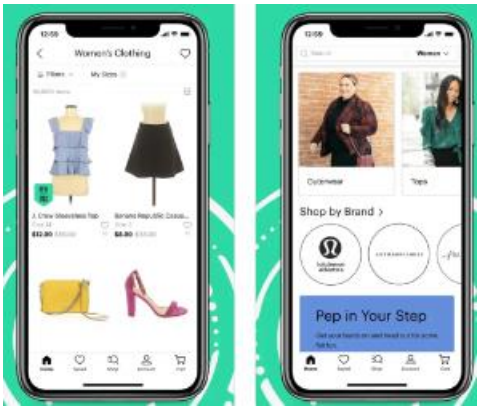

Submission Date: **Saturday, October 05, 2024 [11 pm].**

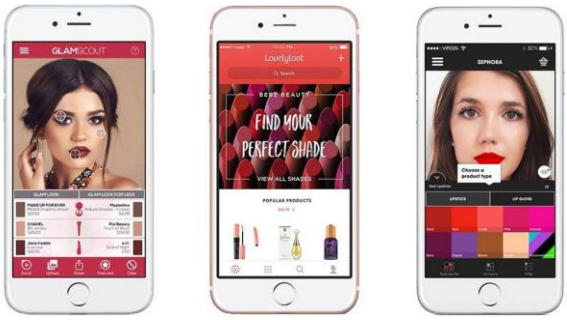

Submission Requirements: **Soft copy latest by 11 pm on Saturday, October 05, 2024**

Submission link shall be posted at least a day before the submission deadline on the group page.

DETAILS:

The class is categorized into two categories males and females. Each individual has to select the case as per the category he/she belongs to. The specific and general details for the assignment requirement are mentioned below.

Specifications	Boys	Girls
Product	Good Reseller App	Augmented reality app for cosmetics
Description	This app will allow the user to list different used items/housel hold items they want to resell in Karachi for example mobile phones, generators, furniture, books, clothes, shoes etc. This app shall also be responsible for the delivery of the items.	This live cosmetic application will allow the system to capture the picture of client's face. On client's preference, the app will apply different products like base, lipsticks, eyeshadows colors etc. on clients face and will also recommend list of cosmetics that best suits the texture and tone of skin.

General case description: Suppose this app is been developed as a product by the software house you work in. The marketing people of the company will tell you the features of the app through interviews and a questionnaire has been developed that is to be filled by the potential users of the app. A prototype has to be developed and needs an approval from the top management and marketing people. The marketing people will rigorously test the app before launch.

Task # 1

State the scope of the application, identifying inclusive and exclusion features, constraints, dependencies, if any. Write down the scope statement as taught in the class.

Task # 2

Construct a High level phase-based Work Breakdown Structure (WBS) for the above-described app broken down on the phases of Waterfall SDLC discussed in the class.
